WASSERWERK

SCHÜTTE GROUP

As a medium-sized enterprise group, the SCHÜTTE Group unites the companies Franz Joseph Schütte, W. Kirchhoff, Eisl and MB Bad & Küche under one corporate umbrella. The core objective is the development and implementation of customized product-range and logistics concepts in the sanitary sector, for customers from trade and industry throughout Europe.

With nearly 250 employees at locations in Wallenhorst (Germany), Salzburg (Austria) and Hongkong (China), we are very proud of a continuous and dynamic growth process, and for this reason promote sustainable and holistic solutions.

Our advantage: as an owner-managed business group, our work is characterized by long-term thinking. At the same time, though, we are able to take rapid and efficient decisions.

Please feel free to contact us!

„Responsibility for employees, customers and the entire company is a matter of the heart for me.“

Björn Schütte, managing partner

As a down-to-earth and owner-managed family business, we care about your contentment. We guarantee this through high-quality products at fair prices. A modern quality assurance with our own laboratory and modern test stands ensures that your water flows purely and reliably at all times. In addition, we operate in a balance sheet climate-neutral manner through CO2 compensation and actively invest in sustainability.

INNOVATIVE

Daring to look to the future. The spirit of the times is reflected in all SCHÜTTE products. Design and technology go hand in hand. Innovations are homemade at SCHÜTTE. Modern product design combined with first-class technology. This is how new visions for kitchen and bathroom are created. Let yourself be inspired.

HIGH QUALITY

The quality and durability of our products is important to us and close to our hearts. Due to constant quality tests and further developments in our laboratory in Wallenhorst, we are convinced that our faucets will give you pleasure for a long time. That is why we give a 5-year warranty on most of our items and a 10-year after-sales warranty on spare parts.

EXPERTISE AND SERVICE

One of the strengths of our enterprise group is the development of complex POS concepts for the presentation of your components. In this regard, you can select from more than 4,000 items. The result: customized shelf presentations for individual requirements in several different areas of application.

As an experienced manufacturer of sanitary articles, we provide almost all imaginable components for resource-friendly and safe installation of drinking water, wastewater and heating systems. We can facilitate customer-specific production, skillfully configuring by our trained team and convincing POS support on site.

We enable customized production, qualified setup by our trained team and convincing POS support on site.

Seize the opportunity and benefit from our reliability, too!

QUALITY AND EXPERIENCE

To ensure sustainable quality assurance, we have a laboratory equipped with state-of-the-art testing devices.

Durability, reliability, and flawless functionality play the decisive role.

Apart from a number of different measuring instruments for testing the tightness (leak test), pressure behavior and rate of flow, we also have machines for material testing by means of X-ray fluorescence and micro-hardness testing at our disposal.

Come and see for yourself and visit us in Wallenhorst. We are looking forward to welcoming you!

ASSOCIATION OF GERMAN MECHANICAL AND PLANT ENGINEERING

As a manufacturer of faucets and showers, Franz Joseph Schütte GmbH has been taking responsibility for its own products in industry and trade since 1976.

For us, best quality does not only mean to produce excellent sanitary ware, but also to develop innovative and high-quality processes. For SCHÜTTE, membership in the VDMA is a valuable building block in the cooperation with production and trade partners in Germany and Europe. An alliance that pays off.

SUSTAINABLE

We are climate neutral. Water is our origin and source of life.

To ensure that it stays that way and that future generations also find an environment worth living in, we have been investing in sustainability for many years to keep the company's ecological footprint as small as possible - and to permanently offset it where it cannot be avoided.

LOGISTICS AND PERFORMANCE

With up to 15,000 picks per day and 18,000 pallet bays, on a total surface of 20,000 m², we are ideally prepared for peak loads.

This way, our approx. 4,000 different items always make their way to your shelves in minimum time – in optimized sales packaging and using efficient delivery routes.

WASSERWERK

Every WASSERWERK faucet is made in Germany and is of the highest quality and convinces with a clear design. With faucets Made in Germany you rely on quality, durability and sustainability.

Even during production, every single faucet undergoes detailed, multi-stage product testing. This is how we make sure that every faucet that leaves our factory deserves the WASSERWERK name.

From the central screw connection for foolproof installation, to the solid faucet body and high-quality cartridge, to the state-of-the-art and durable surface finish: the unique interplay of the selected individual components makes WASSERWERK faucets the perfect companions for your kitchen and bathroom. Feel the difference in quality and enjoy the easy handling.

SMART AND VALUABLE

With a semi-automatic assembly line, we increase the precision of our products in Wallenhorst and guarantee you faucets of outstanding quality.

Many years of experience in the manufacture of sanitary products are our hallmark for valuable faucets. During production, each faucet passes through highly modern and automated quality tests.

Made in Germany is an important milestone for us on the way to sustainability.
